Analysis of Feedback from Students: 2019-20

Students of Semester II, IV and VI gave their valuable feedback on different issues pertaining to Departmental teaching-learning process and College activities and campus life. The feedback form consisted of three sections – section 1 dealt with questions on Departmental teaching-learning process; section 2 consisted of questions on campus facilities; and section 3 sought for suggestions from students for betterment of the departments and the campus. About 55% Honours students and 45% Programme Course students of various departments entered their response in the questionnaire provided in Google form. Of the total respondents, 66% were girls and 34% boys. Filled up feedback forms were discussed by the department and analyzed by the IQAC team members.

SECTION – III

Students' Suggestion

In general, the students are of the view that the college environment is good. They, however, suggested that recruitment of more teaching and non-teaching staff members will help in better learning and execution of college work. They also mentioned that more number of books needs to be bought for the Departmental and College libraries. Most of the students suggested that the toilets and classrooms need better maintenance. The IQAC committee will be looking into these suggestion and incorporate them in its plan of action in the future.

Evaluation

The response of the students for the years 2018-19 and 2019-20 were compared to assess the performance of the IQAC. The IQAC has been able to address some of the issues raised and the proposals given by the students in 2018-19, and it is reflected in the students' satisfaction report.

The students' feedback shows that most of the departments have maintained their good standards of teaching and learning. Departments of Economics, Political Science, Sanskrit, Santhali and Sociology have improved their performance than the last assessment.

Most of the suggestions were regarding clean classrooms & toilets. The IQAC has worked upon it & the results show that 79% and 65% of the student respondents agree that the classrooms & toilets, respectively are properly maintained; the percentage were 75 and 60, respectively, in the previous assessment. 84% respondents, as against 80% in 2018-19, agreed that drinking water is made available in the campus. More number of library books are being made available to the students; percentage of respondents agreeing to the fact increased from 79% last year to 83%. Office staffs are meeting student issues and grievances are being redressed as early as possible; this is reflected by the student satisfaction that has increased from about 73.5% in 2018-19 to about 80% in 2019-20.
